**Assignments**
Capstone Contract (5 points, pass/fail): Complete the Capstone contract form and obtain approval and signature from the site supervisor. The contract template can be found on the course website under “course documents”.

Capstone Proposal (15 points, pass/fail): Revise the capstone proposal completed within the Capstone Proposal course as needed.

Monthly Phone Meetings with the instructor (4 @ 5 points = 20 points, pass/fail): Students are responsible for scheduling monthly 15 to 30-minute phone calls with the instructor to discuss capstone work and assessment progress. Points will be assigned on a pass/fail basis. Times for all four calls must be included in the capstone contract. Only one call can be rescheduled in the event of an extenuating circumstance, and only if a minimum of 48 hours notice is provided to the instructor.

Discussion Board Dialogues (6 dialogues @ 10 points each, pass/fail = 60 points): Students will engage in professional level peer dialogue with other students based on the work being undertaken. Each student will be assigned to host one discussion period (two weeks). The host will raise a clear topic of interest in the initial post in a formal essay format (may be in the first person and include personal perspectives), and will host a dialogue on that topic. The initial post must reference at least one peer reviewed publication that addresses, illuminates, or supports the topic, along with a recent experience or anecdote from the capstone project. The initial post will be 300-500 words in length and posted by midnight on the first Wednesday of the two-week discussion period. Responses by peers and by the host should be a minimum of 150 words in length and contribute substantively to the dialogue. Each student must make a minimum of three posts to the dialogue over the two-week discussion period, and the host must reply to each student at least once and conclude the dialogue with either a summary or consensus statement. It is expected that all students will contribute to the discussion in a timely manner with consistent entries across the two-week period. Contributions to discussions that are concentrated at the end of the period will result in a failing grade. It is expected that, in this culminating course of the MA program, students can manage time in a professional manner and engage in dialogue that reflects an understanding of professional level interaction.

Project Reports (4 reports @ 10 points each, pass/fail = 40 points): A total of five project reports will be submitted at two-week intervals within the Capstone Work period (10 weeks). Each report will include a summary statement of the work undertaken, a log of hours and specific activities, a summary of data collected, and a brief self-evaluation. The report template, which can be found under “course documents”, may be revised prior to the first submission, as needed, to best suit the project. If revised, the template must be attached to the capstone contract and approved by the instructor. Reports should be no longer than one-page in length.

Midterm Capstone Qualifier Presentation (50 points): Students will prepare and present a presentation in an audio/visual format for the MA in Arts in Medicine community, including faculty and peers. The presentation will include an overview of the capstone project, including site work, the literature review and the assessment plan. The presentation must present evidence of saturation and a thorough understanding of the literature on the capstone topic(s). The presentation should be 20-minutes in length and will be delivered as a video recorded lecture/presentation and Arts in Medicine Central in Canvas (AIM Central). Students will host a substantive dialogue with student peers and faculty on the discussion board in AIM Central. Students who do not achieve at least a B (85%) on this
qualifying assignment will not be eligible for graduation in the current term and may be required to repeat the Capstone course.

**Site Supervisor Evaluations (2 evaluations @ 10 points each = 20 points):** The mid-term and final evaluations must be completed by the site supervisor. The evaluation form is available on the course site under “course documents”.

**Final Paper First Draft (20 points pass/fail):** A passing grade will reflect timely submission of a complete first draft that includes all required sections and meets the required word count. The paper should be fully developed and ready for instructor and peer review.

**Final Paper First Draft Peer Review (20 points):** Students will review a peer’s paper and provide substantive feedback that reflects thoughtful consideration as well as an understanding of graduate level writing and APA formatting.

**Final Paper (100 points):** Students will submit a final paper, including an abstract as well as project description, background, methods, results, conclusions, discussion, limitations and recommendations sections. The paper must be 4,000-5,000 words in length, including figures representing the assessment data/results and a reference list.

**Course Procedures and Policies**

1. **Academic Honesty**

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code ([http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/](http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor.

2. **Class Participation/Demeanor**

Participation in all aspects of this course is essential to your success. Completion of every aspect of your individual contract as well as interaction with the instructor and other students within the course is integral to your learning, and full participation is required. It is expected that you will log on to the course website and contribute to discussions a minimum of three-four times per week. It is also expected that, in this culminating course, all interaction is undertaken with a level of professionalism that demonstrates understanding of the professional competencies of the field.

3. **Course Communications**

It is the student’s responsibility to communicate with the instructor promptly concerning any circumstances that might affect his or her participation in the course. Please do not let any questions or concerns go unattended. It is the instructor’s intention to respond to all e-mail communication within 48 hours. If urgent

**Netiquette/Communication Courtesy:** Written communication and electronic interaction are central to online learning. All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and other communication structures. Students are expected to understand the common principles of netiquette. Additionally, please check spelling, grammar and formatting as is consistent with graduate-level correspondence.
4. General Course Questions

There are two ways in which you can ask general questions of the instructors. If you have a general question related to an assignment, course material, or course policy that may be relevant to other class members, you may post it under Course Questions on the Discussion Board. If your question is specific to your own work, progress, circumstances, grade, or is personal in nature, please email the instructors privately using the Mail function in Canvas.

4. Course Complaints

Should you have any complaints with your experience in this course, please visit http://www.distance.ufl.edu/student-complaints to submit a complaint.
