Course Description

This online course explores the theoretical foundations that facilitate an understanding of the relationship of creativity to health and inform the field and practice of arts in medicine and arts in public health. Course learning objectives will be introduced through video lectures, reading, writing assignments, research, weekly online discussions, and individual and group presentations. This course is appropriate for graduate students and professionals of the arts, humanities, sciences, human services, and health related professions.

Course Objectives/Goals

• Introduce the historical roles of arts in healing traditions across cultures
• Introduce theoretical foundations that inform the field and practice of arts in medicine and arts in public health
• Explore the history of health and human services in the United States
• Explore healthcare paradigms and issues, and how the arts can address contemporary needs within American healthcare systems
• Distinguish arts in medicine from the arts therapies
• Identify the roles of the arts to promote health across developmental life stages
• Develop a personal creative practice and articulate a personal creative process
• Develop a personal vision for how creativity relates to health

**Assignments**

1. **Discussion Board** (5 points each): Students will substantively participate in six online discussions (one week in duration each) using the Discussion Board on the course website. A topic or discussion question, often relating directly to required reading, observation or creative process, will be posted by a student serving as Discussion Facilitator, and all students will post an initial response in essay form and also respond substantively to a minimum of 2 other posts. By the end of the week, the discussion facilitator will submit one succinct post articulating a collective viewpoint, or lack thereof with reasoning, in response to the prompt.

2. **Health Issues Blog** (5 points each): Students will establish a blog to participate in six weekly postings exploring current issues in healthcare and how the arts can be engaged to address the issues. Contributions to the blog are strongly encouraged to include personal perspectives, links to relevant and credible news or other media, and references to literature. For practical purposes, the Health Issues and Creative Practice may share one blog.

3. **Individual Research Presentation** (10 points): Students will research the roles of the arts in healing practices across traditional cultures and select one arts-based healing practice to present. Presentations may be in any approved multi-media format, including websites, video, or other presentation medium to be shared online with the class.

4. **What is Art For? Essay** (10 points): Students will write a 1,200-1,500 word formal essay in response to reading, and critically reflecting on, Dissanayake’s text, What is Art For? The essay will be submitted in a formal essay structure, 4-6 pages in length, and APA formatted. Please use 12-point font, double-spacing, and maintain 1-inch margins.

5. **Case Study** (10 points): Students will undertake a case study of an artist or a creative person exploring the experience of meaning, flow state, ritual and self-transcendence in creative engagement. The case study will include observation of the creative process, a literature review, and submission of a written case study.

6. **Creative Practice Blog and Creative Practice Self-Study Presentation** (10 points): Students will engage in a creative practice in response to multidisciplinary weekly prompts throughout the semester and will document the process through an online Creative Practice blog. For practical purposes, the Health Issues and Creative Practice may share one blog. The presentation will include an overview of the current creative practice undertaken during the semester, the results of analysis of journal reflections, and articulation of a personal process. Presentations may utilize website, video, PowerPoint, or another approved format.

**Assignment Submission**

Assignments are to be submitted through Assignments on the course website. Please review course policies and procedures for instructions on assignment submission, naming documents, late assignment submission, and where to get help.

If you have computer difficulties submitting any assignments through the Assignment tab on the course website, notify UF Computer Help Desk at helpdesk@ufl.edu or 352-392-4357 and email your work as an attachment to your Course Instructor/s. Please include
the case number provided to you by the UF Help Desk documenting your request for assistance in the correspondence with the instructor.

Assignment Submission

Naming Your Documents

When naming your assignment document, it will be helpful if you name them by an abbreviated title of the assignment, i.e. IndResPres_yourlastnamefirstinitial, for me this would be IndResPres_Lee. If you abbreviate in this manner, it makes finding the assignment and accounting for it an easy and efficient task.

Formatting Documents

All work submitted include discussion board posts and major assignments must use APA formatting. We recommend that you use the online APA Style Guide at the Purdue Online Writing Lab (OWL). http://owl.english.purdue.edu/owl/section/2/10/

Please use APA formatting for document formatting, in text citations, and reference lists. Be sure to properly cite all sources that you quote or paraphrase.

Completing and Submitting an Assignment

Assignments will be completed and submitted online. To work on an assignment:

1. Open the course website.
2. In the menubar, select Assignments.
3. Click the name of the assignment to open it.
4. To work on the assignment, follow the instructions from your instructor. You may need to type within the text box, or add an attachment, or both.
5. To add an attachment, click Browse to find and select the file on your computer, or click or select files from workspace or site; see Options for adding attachments.
6. To see how your assignment will look to your instructor or project leader, click Preview.
7. To save your assignment to complete later, click **Save Draft** at the bottom of the screen. When you want to reopen it, you'll find it listed in the assignment list with a status of "In progress".

   **Note:** While your assignment is saved as a draft, your instructor cannot see it. For your instructor to see it, you must submit the assignment.

8. When you have finished, click **Submit** at the bottom of the screen.

   **Note:** Don't click **Submit** until you're certain you're finished with an assignment. Once you click **Submit**, you'll no longer be able to access the assignment (e.g., to add more text or attachments) unless your instructor returns it to you.

You will receive an email message confirming your submission. If you do not receive a confirmation, check to see if you've successfully submitted the assignment.

**Late Assignment Submission Policy**

Major assignments will be accepted no later than six days after the due date. Points will be reduced from late assignments at a rate of 5% per day. This policy does not apply to Discussion Board, Health Issues Blog or Creative Practice Blog. Late work will not be accepted on the Discussion Board, Health Issues Blog, or Creative Practice Blog without communication prior to the due date. Instructors will not accept work submitted later than six days following the deadline except in extenuating circumstances and with prior approval by the instructor. Please see the communication procedure for late assignment submission due to technical difficulties below.

**Class Participation/Demeanor Policy**

Participation in all aspects of this course is essential to your success. Every reading, assignment, and interaction within the course is integral to your learning, and full participation is required. It is expected that you will log on to the course website and contribute to discussions and blog forums at least four times per week.

**Communication**

It is the student’s responsibility to communicate with the instructor promptly concerning any circumstances that might affect his or her participation in the course. Please do not let any questions or concerns you have go unattended. It is the instructor’s intention to respond to all e-mail communication within 24 hours during the week, excluding weekends.

Written communication and electronic interactions are central to online learning. All written and electronic interactions are to be in keeping with the expectations of a graduate-level academic environment. An online communications guide is available to you in Resources on our course website.
General Course Questions

There are two ways in which course participants can ask course-related questions of the course instructor. If you have a general question related to an assignment, reading or other course material that may be relevant to other class members, you may post it under Course Questions on the Discussion Board. If your question is specific to your own work, progress, circumstances, grade, or is personal in nature, please email the instructors privately using the mail function on the course website.

Technical Assistance

If you have difficulty accessing online course materials, please reference the citation or document name and author using an online search engine such as Google to locate the document before contacting the UF Help Desk or the instructor.

If you have computer difficulties submitting assignments or navigating the course website, first notify the UF Computer Help Desk at helpdesk@ufl.edu, 352-392-4357 – select option 2, and/or https://lss.at.ufl.edu/help.shtml. Please request the case number provided by the UF Help Desk documenting your request for assistance.

Course Complaints

Should you have any complaints with your experience in this course or in your studies at UF that you feel you cannot discuss with your instructor or advisor, please visit http://www.distance.ufl.edu/student-complaints to submit a complaint.

Course Evaluations

Students are expected to provide feedback on the quality of instruction in this course based on ten criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, and students will be notified when evaluations are available. It is essential that students participate in course evaluation to best understand the experience of the course and its instruction. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results.
**Students with disabilities**

Students requesting accommodation must first register with the Dean of Students Office at [http://www.dso.ufl.edu/drc/](http://www.dso.ufl.edu/drc/). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation.

**Academic Honesty**

All students sign the following statement upon registration at the University of Florida: “I understand that the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University.” As instructor for this course, I fully support the intent of the above statement and will not tolerate academic dishonesty. The university’s policies regarding academic honesty, the honor code, and student conduct related to the honor code will be strictly enforced. Full information regarding these policies is available at the following link: [https://catalog.ufl.edu/ugrad/current/advising/info/student-honor-code.aspx](https://catalog.ufl.edu/ugrad/current/advising/info/student-honor-code.aspx).
