Course Description

First of a sequence of four courses that develop skills in sight singing and ear training. Singing techniques are taught at the beginning of the course.

Course Objectives

- To further develop and reinforce skills such as dictation, sight singing, rhythmic sight reading, meter, and notational practice.
- An understanding of the common elements and organizational patterns of music and their interaction, the ability to employ this understanding in aural, verbal, and visual analyses, and the ability to take aural dictation. **(NASM VIII B. 2.a)**

Required Textbooks

Ear Training: A Technique for Listening, 7th Edition-Benward/Kolosick

A New Approach to Sight Singing, 6e Edition-Berkowitz, Fontrier, Kraft, Goldstein, and Smaldone

Required Materials

Pencil, manuscript paper (visit this site for free printout: <https://www.blanksheetmusic.net/>)

****Further details on individual Units can be found below**

**Dictation Unit Tests (all found in *Ear Training: A Technique for Listening* textbook)
Rhythmic Sight Reading Tests**

Sight Singing Unit Tests (examples taken from Berkowitz's *A New Approach to Sight Singing*)

Course Components for Evaluation

- **Assignments (40%)** – Students will assignments to prepare for every class. These assignments will consist of melodies and/or rhythms to prepare to sing. These assignments are a major part of your grade *and* they will help prepare you for the tests. Keeping up with the assignments will make the tests much easier. Assignments for unexcused absences (See **Attendance Policy** and **Missed Assignment/Test Policy** below.) will not be made up.
- **Lab Work (15%)** – Students will work during class periods in the computer lab on assignment in AURELIA. Students will be required to complete the assignments with 80% correct scores. If students can complete the work in the lab time, no outside time will be required. Students who cannot complete the work with the required correct scores during the class periods will need to finish the work outside of class in order to receive a grade for the lab work.
- **Dictation Tests (15%)**—students will take **three (3)** dictation tests over the course of the semester. Dictation tests will feature sections covered in class from the Benward/Kolosick ear training manual. The student should refer to the course outline to see which sections from the manual will be tested. Students are required to complete dictation tests with a pencil. *Outside practice is necessary for success on these dictation tests.*
- **Rhythmic Sight Reading Tests (15%)**—students will take **three (3)** rhythmic sight reading tests over the course of the semester. For each test, students will have to execute one rhythmic example at sight by “tah-ing.” Through in-class drilling of rhythm and outside of class practice, students will have sufficient preparation for these tests.
- **Sight Singing Tests (15%)**—students will perform **three (3)** sight singing tests **in class** over the course of the semester. Students will be tested from prepared examples (see course outline) and will have an additional component as well (i.e. singing a major scale provided a starting pitch, short musical example, etc.).
 - Students are required to use the **moveable do system**. If a student does not use the moveable do system to perform the test, **he/she will receive a zero** for that test.
 - Every student will be given feedback on the tests.

Course Policies

- Cell phones are to be placed in your slot in the cell phone hanger when you come to class. Your cell phone will be used to record attendance. If your cell phone is not in its slot, you will be counted as absent.
- PDAs, MP3 players, laptop computers, and other electronic devices are **not to be used in class**. If a student needs to use an electronic device due to a documented disability, he/she needs to notify the instructor immediately.
- Students are expected to come to class **on time** and prepared from sufficient work outside of class. Students are permitted **three (3) late arrivals** to class; any late arrivals after three will result in assigned absences. Assigned absences due to late arrivals will count towards the overall policy.
- Students are expected to come to class prepared with the appropriate materials (i.e. pencil/manuscript paper/textbooks) for each class session. You need the proper materials to participate. *Note, on test days, textbooks and other materials are not required for class.*
- Students are strongly encouraged to use online resources (as shared with students by the instructor), programs in the Music Computer Lab (MUB 147), and any other ear training resources to aid in their preparation and understanding of materials presented in class.
- Students are expected to participate in class and be mentally present.
- **Communication Policies:**
 - Students are strongly urged to confer with the instructor on their progress or any issues or questions regarding the course. Also students are encouraged to seek out help from the Teaching Assistants. **Do not wait** until the end of the semester to consult the professor and/or Teaching Assistant if you are encountering difficulties! To communicate with your instructor, use your UF email account, stop by during office hours, or set up an individual appointment.
 - Students are asked to not email the professor or TAs or use office hours to review material missed due to absence/tardiness (exceptions: illness/religious holidays/extenuating circumstances). TA and instructor office hours should be available for students who need extra assistance outside of class, not for repeating material that was missed in class.
 - The instructor will utilize email as the main form of communication outside of class. **It is expected that students check their email multiple times a week** in order to not miss important announcements, postings, etc. "I didn't see your email/announcement or I missed your email/announcement" will not be an acceptable excuse from students and will result in the student being held to any consequences for neglecting to read an important email/announcement.
 - Students are expected to respond to their instructor's inquiries, either verbally or through email, in a timely manner. Any emails sent to the instructor from a non-UF account will not receive a response.
 - The instructor reserves the right to dismiss any student who is being disruptive or disrespectful in the classroom. Any student who is dismissed due to these reasons **will receive an absence for the day** and a follow up from the Dean of Students Office regarding proper classroom decorum.
- **** Attendance Policy:** Attendance is crucial for building aural skills, especially since this course's material builds upon itself.
 - Attendance is mandatory for this course; however, every student will be **permitted four (4)* absences to use at their disposal** without penalty to his/her grade. After four absences are achieved, **each additional absence will result in a deduction of 5% from the overall grade.**

- Absences assigned due to violating the late arrival policy will count towards the attendance policy.
- Remember: If your cell phone is not in its slot, you will counted as absent. (See Course Policies above.)
- Students who come to class without the required books/materials to participate will be considered absent, even if they are physically present in the room.
- It is the student's responsibility to keep track of his/her number of absences; however, he/she may request through an email to the instructor an official absence count.
- Extreme medical, family, and/or personal hardships encountered by the student that might result in achieving many absences that negatively affect his/her grade for and performance in this course must be brought to the instructor's attention immediately and have supporting verifiable documentation in order for the instructor to consider the student's earned grade without applying the absence penalty. It advised that the student review UF's policies on withdrawals to find out what options are available should a situation described above arise: <https://catalog.ufl.edu/UGRD/academic-regulations/dropping-courses-withdrawals/#droppingcoursestext>

**Absences missed due to religious holiday or practice will not count against the overall allotted absence amount.*

- **Missed Assignment/Test Make-up Policy:**

- In order for the student to make up a test, the instructor must receive notification (email or in-person) from the student of an illness/emergency **no later than 15 minutes into class-time** (preferably before class has started) **as well as an excuse note** (see bullet points below) shown to the instructor at the next class the student attends. *Having a classmate notify the instructor of an issue will not suffice as notification or excuse!*
- Tests may only be made up if the student has one of the excuses below:
 - **Verifiable Illness** (confirmed by a health care provider/printout from student health care center/notification from registrar) or **Verifiable emergency** (with documentation).
 - School-sponsored trips/activities (bring a note from your instructor **before** the absence and schedule a make-up test **before the trip**).
 - An absence on a test date **discussed** with the instructor and **excused in advance** (make-up test must be scheduled before the absence)
 - **A Religious holiday/practice**
- If portions of a test are missed due to a late arrival without verifiable excuse, the student will not be offered the opportunity to make missed portions up.
- It is the student's responsibility to contact the instructor to make up a test. If a student does not schedule a make-up test **within one week** of the missed test, he/she **will not be extended a make-up opportunity** and will receive a **zero** on that test.

Students Requiring Accommodations

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Course Evaluation

Evaluations help me improve my teaching. They are also required for my evaluations by the school director and the university. Please provide feedback on the quality of instruction in this course by completing online evaluations at <https://evaluations.ufl.edu>. Evaluations are typically open during the last two or three weeks of the semester, but

students will be given specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results/>.

University Honesty Policy

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (<https://www.dso.ufl.edu/sccr/process/student-conducthonor-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.
