Advanced research is designed to allow students time and support for working toward research goals required by their degree programs. Each project and timeline will be unique to the individual student.

Students enrolled for advanced research are responsible for

- setting and meeting research goals
- communicating with their advisor
- adhering to deadlines for their degrees
- making improvements to the work according to the suggestions of the advisor and committee members
- taking the initiative in moving the work toward completion.

All of the resources of UF are available to students taking Advanced Research.

**Students with disabilities** requesting accommodations should first register with the Disability Resource Center (352-392-8565, [www.dso.ufl.edu/drc/](http://www.dso.ufl.edu/drc/)) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

**Students are expected to provide feedback** on the quality of instruction in this course by completing online evaluations at <https://evaluations.ufl.edu>. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results/>.
