- Demonstrate advanced levels of self-directed practice evidenced by site supervisor evaluations and reporting of patient contact and administrative activities.
- Engage in critical self-reflection measured through writing and reporting assignments (Interaction Reports) and demonstrated through the development of personal approaches to arts in health (e.g., Discussion Board posts/comments, Creative Blog).
- Produce graduate level academic paper relevant to the populations at the student's Practicum Site or on a topic that the student anticipates for Capstone (MA students).
