Grieving Our Collective Loss—One Stitch at a Time

“...even though my life’s work has prepared me to understand precisely this moment in history, I’m finding scholarly mechanisms too abstract in the face of material loss. There is an ever-growing, gaping maw of a “people-shaped hole in the universe” that I cannot feel.”

Culture Surge

“We believe that artists and culture-makers are the visionary leaders needed to galvanize us towards a future rooted in justice, care, and connection.”

Performance Despite the Pandemic:

Continuing to Create at the Intersection of Coronavirus, Crisis, and Care

Kairi during COVID

A short film by Pamela Longsword commissioned by Oolite Arts.

People Who Need to Take Extra Precautions - CDC

Coronavirus and the Politics of Care - Law and Political Economy

“The most urgent need is for a new politics of care in this pandemic”

Pregnancy during COVID- What Are the Risks?

If you are pregnant, you recently delivered a baby or you are breast-feeding, you’re probably concerned about the impact of coronavirus disease 2019 (COVID-19) on you and your baby. Here’s what you need to know.

If you are pregnant, breastfeeding, or raising young children

Although there are currently no data showing that COVID-19 affects pregnant people differently than others, we do know that pregnant people are at greater risk of getting sick from other respiratory viruses than people who are not pregnant. Sometimes, this causes adverse outcomes for the mother or child. Therefore, if you are pregnant, be mindful about reducing your risk of getting sick.

COVID-19. Pregnancy and Breastfeeding

Experts are learning more every day about the new coronavirus that causes COVID-19. The American College of Obstetricians and Gynecologists (ACOG) is following the situation closely. This page will be updated as ACOG learns new information for pregnant and breastfeeding women.

contraCOVID

Contra COVID is an organization dedicated to helping Latino and immigrant families during this pandemic. We are a group of students and professionals from Harvard Medical School and medical institutions around the country who are dedicated to ensuring that Latino and immigrant individuals have the information they need to protect themselves and their families.

Why New Mothers with COVID Should Not be Separated from their Newborns.

“Unless a mother consents to separation, there is currently no basis for a medical team to override parental decision-making rights for their child.”
