COURSE DESCRIPTION: This course engages students in research, planning, and submission/approval of a Capstone project plan as a part of the Master of Arts (MA) in Arts in Medicine. The student undertakes extensive literature review to support the development of a plan for developing and accessing an arts in health project in a healthcare facility or community health setting. A robust literature review, program

planning, proposal writing, reflective writing, and regular meetings with the course instructor assist students in developing an appropriate Capstone plan and specific skills to deepen understanding of professional arts in medicine practice.

COURSE GOALS AND OBJECTIVES:

1. Identify and practice advanced literature review skills.
2. Articulate individual goals for using the arts to address health in a healthcare or community setting.
3. Investigate and identify the range of considerations necessary for planning an effective arts in medicine research or assessment project.
4. Identify and apply professional-level program planning skills, including the articulation of goals, objectives, anticipated outcomes, methods, and evaluation plan.

PREREQUISITE KNOWLEDGE AND SKILLS: Knowledge of literature review and program planning skills are essential to success in the Capstone Proposal course. Knowledge and skills developed in prior coursework, specifically modules and resources from *Research and Evaluation*, will be of use.

HOW THIS COURSE RELATES TO THE STUDENT LEARNING OUTCOMES IN THE ARTS IN MEDICINE GRADUATE PROGRAM:

This course is a culmination of graduate training that prepares the student to fulfill the 3rd SLO in the Capstone course at the end of the graduate program.

SLO 3: Leadership (Professional Behavior)

Students will be able to identify and articulate conceptual and procedural knowledge to develop, administer, and evaluate arts in health programming.

INSTRUCTIONAL METHODS: This course engages in planning, research and writing of a Capstone proposal in preparation for the culminating Capstone project. Through writing, reading course materials, participating in discussion boards, literature review, one-to-one discussion and feedback with the instructor and revising the proposal, the student will yield a completed Capstone Proposal.
