Course Description: This course explores the interdisciplinary field that has grown out of what has been termed the “sensory turn” in anthropology in the past several decades, which has impacted music studies more recently. This movement, which emphasizes the senses, bodily experience, and perception as primary for cultural analysis, has its roots in the philosophical tradition of phenomenology, particularly of Edmund Husserl and Maurice Merleau-Ponty. The sensory turn has had a growing influence on ethnographic practice in anthropology and ethnomusicology, as we will explore, especially through studies of dance, music perception, and attempts to decolonize our understanding of the senses.

Response Papers: Post a short, succinct response (about 250 words) to the course website by midnight on Sunday each week. Choose one or two of the readings from that week, and respond to them in the context of our ongoing discussions and/or your own research or experience.

Mini Sonic/Sensory Ethnography Project: Choose a musical or sonic site where you will conduct a mini-ethnography focusing on some aspect of the senses. Your site may be physical or virtual. You will take field notes, conduct interviews, possibly make audio or video recordings, and present your findings in a short, 10-minute, multimedia presentation to the class on March 1.

Final Paper: A research paper of about 15 pages on an aspect of music and the senses of your own choosing. Discuss possible paper topics early in the semester with Dr. Politz. Abstracts are due March 22. The final papers are due April 26 by 5 p.m.

Policies

The in-person section of this course will take place face-to-face to accomplish the student learning objectives of this course. In response to COVID-19, the following policies and requirements are in place to maintain your learning environment and to enhance the safety of our in-classroom interactions.

- You are required to wear approved face coverings at all times during class and within buildings. Following and enforcing these policies and requirements are all of our responsibility. Failure to do so will lead to a report to the Office of Student Conduct and Conflict Resolution.
- This course has been assigned a physical classroom with enough capacity to maintain physical distancing (6 feet between individuals) requirements. Please utilize designated seats and maintain appropriate spacing between students. Please do not move desks or stations.
- Sanitizing supplies are available in the classroom if you wish to wipe down your desks prior to sitting down and at the end of the class.
- Follow your instructor’s guidance on how to enter and exit the classroom. Practice physical distancing to the extent possible when entering and exiting the classroom.
- During class breaks, please exit the building entirely and observe physical distancing of 6 feet. Please do not congregate in the classroom or in the hallways. You should come prepared with outerwear, umbrella, etc. to take the break outdoors.
- It is strongly recommended that students in the in-person section bring a device (laptop, tablet, smartphone) and earbuds/headphones with microphone to class to participate in Zoom video and chat sessions. Please speak with the professor if you need access to a device for class.
- If you are experiencing COVID-19 symptoms (Click here for guidance from the CDC on symptoms of coronavirus), please use the UF Health screening system and follow the instructions on whether you are able to attend class. Click here for UF Health guidance on what to do if you have been exposed to or are experiencing Covid-19 symptoms.

The online section of this course takes place on Zoom and Canvas concurrently with the in-person section. You should participate actively in discussion on Zoom, using video and audio as appropriate, and keeping your microphone muted when not speaking. Remember that you can also participate using the chat function in Zoom. You may mute your video after the beginning of class if you wish, but you are
encouraged to keep it on. You may find that earbuds or headphones, as well as a quiet, private space, improve your experience.

Our class sessions may be audio visually recorded for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your image, video, or voice recorded, please speak with the professor about your concerns. You also have the option of using the chat function to participate. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/.
Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/ (Links to an external site.).
