Course Description: This two/three credit course is designed to assist the preparing classroom teacher in developing a basic knowledge of art and art teaching at the elementary level.

Purpose of the Course: ARE 4314 is designed to engage prospective elementary classroom teachers in critical examination of: a) the nature of art and art teaching; b) skills and understandings related to the production and appreciation of art; c) pedagogical strategies appropriate for elementary learners; and d) development, selection, evaluation, and utilization of art teaching resources for the elementary classroom.

Course Objectives: In this course, prospective classroom teachers will learn about:

- their personal beliefs and values that influence how they view art and art teaching;
- art tools, materials, and resources appropriate for elementary classroom use;
- strategies for promoting student’s critical and creative thinking skills through art instruction;
- ways to effectively integrate art content and skills with other subject areas in the school curriculum;
- contemporary art educational theory and its practical applications in the elementary school classroom;
- child development in art and how to plan art lessons that are developmentally appropriate for children;
- techniques and processes that will build student confidence with artistic expression.

Methods: Instructional strategies in this course include lectures, discussions, personal research, and studio activities. Small group and individual projects may be assigned. To aid student learning, resources such as multimedia, reproductions, art materials, field trips, web sites, professional journals, and texts may be utilized, at the discretion of the individual instructor. Outside work will be required to complete some assignments.

Course Structure: This course meets once per week for lecture, discussion, and any demos. Demos will mostly be available for you to reference for your project assignments in Canvas. Lecture topics will cover contemporary art education theory and practice, child development in art, art lesson planning, integrating art in the school curriculum, and other topics determined by the lecture instructor. Although specific approaches to studio activities may vary as determined by each instructor, the primary focus will be on various art media experiences involving drawing, painting, printmaking, book-making, and so on, plus critical analysis activities involving looking at works of art appropriate for elementary school children.

Course Textbook and Materials: No required textbook. There are required readings and course handouts that will be made freely available online via CANVAS.
All materials for projects can be purchased on-line. Please refer to the supply list to buy at [https://dickblick.com](https://dickblick.com) that will be e-mailed and on CANVAS.
