**DESCRIPTION OF THE COURSE:** Exploration of the social and theoretical foundations of contemporary art education practice.

**STRUCTURE OF THE COURSE:** This course includes two major components: weekly class meetings and field experiences (Pandemic Adjustments). Students will: (1) meet as a group each week for lectures, group discussions, and other classroom activities; and (2) participate in a weekly experience that will involve assisting in a school classroom and assuming a limited teaching role.

**PURPOSE AND OBJECTIVES OF THE COURSE:** This course is structured to assist pre-service art teachers in developing confidence, knowledge, critical thinking and communication skills in the theory and practice of teaching art. The emphasis in this course is on learning how the art teacher can use educational theory and research to shape personal instructional practices in the classroom and in alternative educational settings. The course also emphasizes critical thinking skills, writing and research in art education. The following objectives are aligned with the 6 Florida Educator Accomplished Practices (FEAP) mandated by Florida legislation (Statute 240.529). At the completion of this course, students will:

- Explore the role of community and globalization in the teaching of art.
- Use theories of child development to integrate diverse student learning styles (special and exceptional needs) in the classroom.
- Explore implications of contemporary research on cognition and creativity for art education practices.
- Explore content integration and interdisciplinary approaches to the teaching of art.
- Consider the laws and court decrees that address the rights and obligations of students, parents, and educators.
- Design a plan for data collection (e.g. syllabus assessment) to inform teaching and student progress.
- Use aesthetic philosophies and theories (e.g. philosophy, classroom protocols etc), and how to apply them to facilitating classroom discourse about art.
- Use a variety of strategies (e.g. modern and post-modern) in teaching art.
- Use uses of digital technologies as a teaching and learning tool in art education.
- Demonstrate professional responsibilities and standards for art teachers in public school settings.

In addition, this course fulfills the student learning outcomes for the **Humanities (H)** and **Gordon Rule** education designations as indicated on the General Education website: [http://www.cba.ufl.edu/gened/docs/GenEd\\_SLO.pdf](http://www.cba.ufl.edu/gened/docs/GenEd_SLO.pdf) and <http://www.registrar.ufl.edu/catalog/policies/advisinggordon.html>. This course provides instruction in the key themes, principles and terminology in the field of art education. The courses focus on the history, theory and methodologies used within art education, enabling students to identify and to analyze the key elements, biases and influences that shape thought. This course emphasizes clear and effective analysis and approaches issues and problems from multiple points of view.

**METHODS OF THE COURSE:** The primary instructional methods of this class will include lecture, readings, group discussions and individual projects. To assist students in developing a full understanding of the course content, other methods of learning may be employed as needed. Students will be assessed through writings, participation in discussions, journaling, projects, and their professionalism. Students will be expected to take primary responsibility for their own professional development.

**COURSE REQUIREMENTS:** To achieve the objectives of this course, each student will:

- read and respond in writing to assigned readings about course content
- complete all in-class and out-of-class activities associated with the course
- complete a professional development plan on a topic of choice related to course content
- keep a journal of participation and observations during assigned field experiences
- demonstrate content knowledge through tests, written assignments, activities, and a personal teaching portfolio.

**Text and Materials:** No required textbook. Readings and resource will be available online through **ARES**, UF eLearning **Canvas** (LMS), and **Livetext™** portal (COE) <https://education.ufl.edu/student-services/experience-and-internships/>.

**Livertext™ Account:** A onetime purchased LiveText™ membership is required for successful completion of your state approved educator preparation program. Throughout your program, courses will include Key Task Assessments that must be uploaded into LiveText™ The link below will show you how to create a live text account for recording state requirements and internship experience. <https://www.youtube.com/watch?v=V9iO55mz9T8>

**Finger Printing:** The 2004 Florida legislature passed Senate Bill 2986 amending Sections 1012.32 and 1012.56, Florida Statutes. Effective June 10, 2004, all students in educator preparation programs who are engaged in field experiences and who have direct contact with PreK-12 students are required to supply the school district with fingerprints for the purpose of completing a criminal background check. Directions for fingerprinting and background checks and cost <https://education.ufl.edu/school-teaching-learning/fingerprint-background-check-requirements/> and [www.fieldprintflorida.com](http://www.fieldprintflorida.com)

**Suggested Text:** While there are NO required textbooks for ARE4243, the following are some recommended for anyone building a personal art education reference library and may prove useful in your independent growth as an art educator.

Art education textbooks and journals (i.e., *Art Education Journal, Studies in Art Education, School Arts, and Arts and Activities*) are housed in the Education Library in Normal Hall. All materials used to complete in-class assignments will be furnished through a lab fee. Students are expected to have a GATORLINK email account and to check it regularly.

## ARE4243 Academic Policies and Procedures:

---

*"There are two aspects of providing occasions for wonderful ideas. One is being prepared to accept children's ideas. The other is providing a setting which suggests wonderful ideas to children."* (Duckworth, E., 1987 pg. 224)

**Electronic Device Policy:** A note on cell phones, texting, and checking one's email during class: Research has shown us that even having our cell phones on the table in front of us diminishes our ability to learn well; further, taking notes via computer diminishes one's ability to process information. Checking texts, emails, and messages is also unprofessional and disrespectful to our class community. Please put your phones on vibrate, do not check email, Facebook etc. via computer during class; I will do so as well. I appreciate your cooperation with this important aspect of creating a class of which we all want to be a part.

### Late Work and Make-Up Work Policy:

Late assignments lose 10% of their value for being late and will not be accepted beyond 7 days of the due date. Being absent from class does not excuse a student from meeting deadlines. Students will have the opportunity to make up work missed only when absence is excused and permission is requested and given through email.

**Online Course Evaluation Process:** Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. Faculty does not receive the results until after the grades have been finalized. These evaluations are conducted online at <https://evaluations.ufl.edu> . Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results/>

**In-Class Recording:** Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student.
