COURSE DESCRIPTION

A project-based studio foundation course for spatial investigations where students will explore methods for defining space, conceptualizing space, three-dimensional design strategies, form development, and an overview of concepts that shape the contemporary artists’ understandings of form and space. The course will cultivate the student’s ability to perceive, plan, design, and create spatially. Assigned projects are intended to offer varied frameworks of understanding by utilizing research, workshops, and experimental design processes. Students will explore the vast expanse and edges of 3D thinking, including the basic principles of 3D design, design strategies, theory, vocabulary, historical/contemporary references, and the development of technical and critical competencies. Studio practice and creative strategies will be encouraged as part of this course and students will be assigned sketchbook work and specific research techniques. Projects will be informed by an assortment of readings, lectures, video/film screenings, museum and other site visits. Focused conversations, critical discussions and individual tutorials will be a part of the course.

All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.
Publication without permission of the instructor is prohibited. SPACE STUDIO EVALUATION AND GRADING

The work from Space Studio ART2013C will be graded on specific criteria defined by individual project goals. Additionally, all projects will be graded on their success in the following areas: concept development, risk-taking, experimentation, excellent design decisions, craftsmanship, ambition, technical competency and meeting process work deadlines. As previously mentioned, regularly posting to a blog or wiki is required for developing sketches, diagrams, reflective notes and ideas. All process work as well as each project must be finished within the specified deadlines.
The course grade for each student will be evaluated on the basis of:

- Completion and success of 4 major projects.
- Completion of readings, writings, and discussions.
- Attendance
- Research – in addition to the Drawing Book, the conceptual tools you employ to inform your practice.
- Technical competence, craft, and inventive use of software, hardware and materials.
- Class participation in discussion, critiques and relevant activities.
- Presentation – all work should be presented in critique in a finished and professional manner.
- Effort, hard work, and a diligent, consistent effort toward excellence.
- Active participation and discussion.

Generally project grades in this course are considered in the following way:

A 4.0 Exceptional work, all criteria of assignment have been surpassed in a distinguished manner and solutions to problems presented exhibit a depth of understanding. In addition, student is engaged in exceptional studio practice, which includes active research, looking up artists recommended, asking relevant questions about other artists’ works or ideas, and being thoroughly engaged in the course content.

A- 3.67 Well-presented, superior work: all criteria of assignment were surpassed in a distinguished manner (including exceptional studio practice highlighted above). Minimal improvements could be made to the project overall.

B+ 3.33 Very good work: all criteria of assignment were surpassed, minor changes could be considered and executed to bring piece together and studio practice was exceptional.

B 3.0 Very good work: above average solutions and clear potential. Most criteria of assignment were surpassed with some improvements to be made. Execution was well done. Studio practice during the project was commendable.

B- 2.67 Good work: most criteria of assignment were met. Work showed promise with a few significant improvements to be made. Studio practice was adequate.
**C+ 2.33**  Slightly above average: work, most of the criteria of the assignment were met. The work is not yet a unified whole or cohesive statement, yet effort was made. Studio practice was adequate, but could be more reflective and thoughtful.

**C 2.0**  Average work: the assignment directions were followed and the requirements were met in a relatively routine way. Slippage in levels of craft, originality and presentation-studio practice was adequate, but could be more reflective and thoughtful.

**C- 2.67**  Slightly below average work: the assignment directions were followed and the requirements were minimally met, but there is much room for developing assignment’s concepts further. The level of craft and breadth and depth of idea development needs to be improved. There is some evidence of studio practice, but the quality and quantity is lacking.

**D+ 1.33**  Below average work: an attempt to solve the problem was made, but there is much room for improving skills and developing your concepts further. The criteria of the assignment are barely met. Basic craftsmanship skills have been neglected and there is a lack of breadth and depth of idea development. There is minimal evidence of studio practice, but the quality and quantity is lacking.

**D 1.0**  Inadequate, below average work: the requirements of the assignment are not addressed. The execution of the work is careless and represents an incomplete effort. Work is substandard. There is little or no evidence of studio practice.

**D- 0.67**  Unacceptable work and effort: the requirements of the assignment are not addressed. The execution of the work is careless and represents an incomplete effort. Work is substandard. There is little or no evidence of studio practice.

**E 0**  Unacceptable work and effort: the work submitted is inadequate; the requirements of the problem are not addressed. The piece represents careless and/or incomplete effort. No evidence of studio practice. Work is substandard. Or, assignment was not submitted.

TOTAL GRADE: 15

Participation, Homework and In-class Assignments: 20%

- Participation includes arriving to the lab prepared and ready to work, on time, with materials
- Contributing to class discussions by asking relevant questions and giving thoughtful responses and feedback in critiques and class discussions
- Attending Visiting Artist Lectures
- Consideration for classmates
- Attendance
- Positive attitude and open mind
- Keeping studio clean

Process Book: 20%

The process book is a souvenir of experiences, a document of progress, and a record of daily commitment to a creative process. It is a place to experiment with materials and ideas and a place to work through problems. It may also be a collection of thoughts and writings or images that intrigue you. A student should work on it regularly and carry it everywhere. Students should always bring it to class. It will be collected three times during the semester and a grade will be assigned based on successful integration of the components listed above as well as some others listed below.
Mandatory components of the process book:

- **Daily entries** should show evidence of art research, idea development, spatial research, sculptural form analysis, creative thoughts and activities.

- There will be 4 graded checkpoints throughout the semester. **At each checkpoint your book should include new research drawings** related to project development and research of artists and forms related to your projects. Drawings should be ambitious and drawings related to project planning should be comprehensive, legible, and offer readers a clear description of the intended construction techniques, measurements, materials, and thematic influences. **Always use the entire page.** For artist research always indicate the **title, year and name** of artist on the back or bottom of when you are including artworks as influences.

A great site for art research is ARTstor [http://www.artstor.org/](http://www.artstor.org/) through the UF Art and Architecture library database list at [http://www.uflib.ufl.edu/afa/](http://www.uflib.ufl.edu/afa/). Art reproductions used for research drawings should not be downloaded off the web (unless you have access to a high quality reproduction and printer) but preferably should be found in library books and periodicals. Display the reproductions with your research drawings.

- There should be a section reserved for critique notes. (Questions and comments made about your work during critiques may be recorded in your book by another student or by yourself after each project critique.)
- Include idea development and documentation for all your assignments, including sources of influence or inspiration, research notes, and works in progress.
- Additional exercises and drawing assignments to be included in your book may be announced periodically in class or included on one of your four research drawing assignment sheets distributed quarterly throughout the semester.

**Process Book Grading Considerations**

- Ambitious and varied drawings and research
- Clarity
- Quality of marks (line)
- Proportion/accuracy
- Excellence in planning
- Extra research, ideation, creative experimentation, and drawing related to sculptural analysis or processes.

**You cannot earn an “A” on the drawing book unless you do extra creative work** in addition to the assigned work during each drawing checkpoint. Extra work could include drawings, photography, collage, creative writing, ideation, experimentation with materials, research etc. **One-half letter grade will be taken off for each incomplete project planning drawing.** Drawing books will go down a letter grade for each class missed on late turn-in dates.
Visiting Artist Series

**Attendance is required for the following Visiting Artist Series Lectures.** We will take notes and provide a written response to each visiting artist.

**SPACE STUDIO ATTENDANCE AND EXPECTATIONS**

**ATTENDANCE**

Full participation by showing completed work during all scheduled critiques is required along with active participation through shared ideas and commentary. You are required to work/participate for the entire duration of the scheduled class period. Students are expected to attend all classes. **Unexcused absences will be cause for a lowered grade. Your fourth absence will result in ONE grade drop.** Absences will be counted from the first class meeting onward. Appropriate documentation from the student health service should be obtained for medical excuses. In general, acceptable reasons for absence from class include illness, serious family emergencies, special curricular requirements (e.g., judging trips, field trips, professional conferences), military obligation, severe weather conditions, religious holidays and participation in official university activities such as music performances, athletic competitions or debates. Absences from
class for court-imposed legal obligations (e.g., jury duty or subpoena) must be excused. Other sound reasons may be offered and considered on an individual basis. If an absence occurs it is the student’s responsibility to make up all work. Students should check with the instructor or another student outside of class time when they miss a class (prior to missing the class if possible), as in- and out-of-class exercises are spontaneously assigned. Students should bring a doctor’s note for any class from which they expect to be excused. Please address any concerns, problems, and questions regarding this class to the instructor as they arise.

**Tardiness:** Arrival to class fifteen minutes after start of class will be noted and three such incidences will count as one absence. Leaving early from class will also be considered as tardiness, and will be counted as such. Students are responsible for satisfying all academic objectives as defined by the instructor. Students who do not attend at least one of the first two class meetings of a course or laboratory in which they are registered, and who have not contacted the department to indicate their intent, may be dropped from the course. The university recognizes the right of the individual professor to make attendance mandatory. After due warning, professors may prohibit further attendance and subsequently assign a failing grade for excessive absences.

**Students must check their school email accounts regularly.** Students are responsible for any information, deadlines, and updates emailed to their webmail accounts.

**LATE WORK**
All projects, reading responses, and research projects must be completed on time for full credit. Specific due dates are stated on each project sheet and are announced in class. Failure to complete any project on time will result in a drop of one full letter grade, and failure to complete any other assignment, such as response papers, in-class exercises, or other class work, on time will result in a drop of ½ letter grade for each day it is late. If the time line states that a project is due at the beginning of class, turning it in at the end or after class is considered late. You must have work finished and installed before the start of class on critique days or your work will not be critiqued and your project grade will be lowered. It is the student’s responsibility to turn in all work on time. Full participation by showing completed work during all critiques is required along with active participation through shared ideas and commentary.

**CELL PHONES**
Students in the School of Art and Art History will not be permitted to have cell phones turned on in class. If it beeps, chimes, rings or makes any type of noise, turn it off before entering the classroom. Continuous cell phone disruptions will result in lowered grades.

**UNIVERSITY POLICY FOR RELIGIOUS HOLIDAYS**
The Board of Regents and state law govern university policy regarding observance of religious holidays: Students, upon prior notification of their instructors, shall be excused from class or other scheduled academic activity to observe a religious holy day of their faith. Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances. Furthermore, a student who is to be excused from class for a religious holy day is not required to provide a second party certification of the reasons for the absence.
UNIVERSITY ILLNESS POLICY
Students who are absent from classes or examinations because of illness should contact their professors. If you’re unable to attend class due to illness, please email the teacher prior to class meeting time. Please state your name, class, as well as the reason you will not be attending class that day.

ON-LINE STUDENT EVALUATIONS: Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open during the final two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu.
