Instructional Methods

This course builds upon efforts in Capstone Proposal and engages in furthering planning, research and writing in preparation for the culminating Capstone project. Through writing, reading course materials, participating in discussion boards, one-to-one discussion and feedback with the instructor and revising the IRB Submission or Alternate Major Assignment (AMA), the student will successfully complete Advanced Professional Seminar.

Student Expectations

This is an asynchronous course, which means there is no set meeting time each week. However, there are set deadlines each week, as well as longer-term deadlines for major assignments. As a result, this course format requires personal time-management and attention to deadlines.

*The course is three credits and is only eight (8) weeks long, so it is an intensive, fast-paced investment. **Students should expect approximately 16 hours of work per week for this course.*** This will include assigned videos, readings, online discussions, presentations, and other formal assignments. Your instructor will make every effort to respond to students' email messages within 48 hours Monday – Friday, responses to messages sent during weekends and holidays may take slightly longer.

Course Schedule

Assignments: *Students will complete assignments on an IRB submission or Alternate Major Assignment (AMA) Track. AMA must have approval from Advanced Professional Seminar and Capstone Instructors.*
