This course will address the burning question “What do I do after art school?” We will address how emerging artists support themselves, how to talk and write about your creative work, and consider various paths available to pursue an artistic life. Opportunities for emerging artists including grants, residencies, shows, jobs, and freelance work will be examined and discussed. We will explore what professional growth, success, and networking look like in a field where the criteria for being a “professional” are open-ended and shifting. We will look at issues of equity, access, and inclusivity in the arts and the impacts of emerging digital platforms.

The course is divided into four basic units with corresponding investigations through visiting artists, field trips, readings, presentations, discussions, and projects.

**GRADING**

Letter Grade and Corresponding Grade Points are as follows
Specific criteria for grading will be listed on each assignment sheet but will always consider:

1. Completion: The project addresses the assignment and its parameters, is completed on time, has taken significant effort and thought, and critiques/feedback have been considered.
2. Creativity: The project and ideas are unique and thoughtful; research has been engaged in
3. Execution: The project is well crafted and presented, technically executed at a high level

Generally, project grades in this course are considered in the following way:

A  4.0  Exceptional work, all criteria of assignment have been surpassed in a distinguished and solutions to problems presented exhibit a depth of understanding. In addition, student is engaged in exceptional studio practice, which includes active research, looking up artists recommended, asking relevant questions about other artists’ works or ideas, and being thoroughly engaged in the course content.

A-  3.67  Well-presented, superior work: all criteria of assignment were surpassed in a distinguished manner (including exceptional studio practice highlighted above). Minimal improvements could be made to the project overall.

B+  3.33  Very good work: all criteria of assignment were surpassed, minor changes could be considered and executed to bring piece together.

B  3.0  Very good work: above average solutions and clear potential. Most criteria of assignment were surpassed with some improvements to be made. Execution was well done.

B-  2.67  Good work: most criteria of assignment were met. Work showed promise with a few significant improvements to be made.

C+  2.33  Slightly above average: work, most of the criteria of the assignment were met. The work is not yet a unified whole or cohesivestatement, yet effort was made; adequate but could be more reflective and thoughtful.

C  2.0  Average work: the assignment directions were followed and the requirements were met in a relatively routine way. Slippage in levels of quality, originality and presentation; adequate but could be more reflective and thoughtful.

C-  2.67  Slightly below average work: the assignment directions were followed and the requirements were minimally met, but there is much room for developing assignments further. Breadth and depth needs development; work lacks quality and quantity.

D+  1.33  Below average work: an attempt to solve the problem was made, but there is much room for improving skills and developing further. The criteria of the assignment are barely met. Basic skills have been neglected and there is a lack of breadth and depth, and both the quality and quantity are lacking.

D  1.0  Inadequate, below average work: the requirements of the assignment are not addressed. The execution of the work is careless, the effort is incomplete and substandard.
D- .67 Unacceptable work and effort: the requirements of the assignment are not addressed. The execution of the work is careless, the effort is incomplete and substandard.

F 0 Unacceptable work and effort: the work submitted is inadequate; the requirements of are not addressed. Work is substandard not submitted, efforts are careless and/or incomplete.

**OVERVIEW**

This course will include artwork and ideas that may be controversial. Our lectures and sections are designed to be places for discourse, not avoidance where we will think critically before reacting impulsively. I expect maturity and professionalism from all my students. Digital devices may be used for notetaking, research, and artmaking when appropriate, but off-topic browsing is not allowed. During open work time, partial headphones are allowed.

I want all of you to ask lots of questions and learn as much as possible this quarter. To make this most efficient, please follow the steps below in order:

2. Phone a friend! Get email/contact info for 2 of your classmates this week
3. Contact your professor

**ATTENDANCE**

- Students are expected to attend all classes and work/participate for the full duration of the scheduled class period. Full participation by showing completed work during all deadlines is required along with active participation through shared ideas and commentary.

Students should bring a doctor’s note for any class from which they expect to be excused. Please address any concerns, problems, and questions regarding this class to
the instructor as they arise.
