General Information

Description

Utilizes draping techniques to create garments. Draping is one of the two methods used to create patterns for theatrical costumes, the other being flat pattern drafting. In this course students will build draping skills through repetition, progressing from basic to intermediate pattern shapes. The course will also instruct students in industry standard like taking measurements and preparing and fitting a muslin mockup. The course culminates with the final project, a dress that is draped, cut, and constructed using a padded dress form based on a model's measurements.

Expectations and Goals

By the end of this course students will be able to understand and put into practice:

- The fundamentals of draping patterns on the dress form
- The fundamentals of truing the muslin drape, adding notches, and accurately transferring pattern pieces to paper
- Taking measurements and padding out a dress form
- Cutting, constructing, and fitting a muslin mockup
- Pattern truing
- Cutting and constructing a final project (dress design approved by the instructor)
- Intermediate construction techniques such as a centered or lapped zipper, facings, set in sleeves, and side seam pockets

All homework must be completed on full-scale dress forms in the costume shop. Half scale dress forms may be checked out by any student who feels they would benefit from being able to practice at home. Half scale practice is not a replacement for completing the work at full scale and will not be accepted in lieu of the full-scale draping homework assignment.

The Costume Shop is open Monday through Friday from 9am to 5pm. During THE 4950 Production Workshop, access to the shop may be limited, but is always negotiable. Production Workshop meets

Monday through Thursday during periods 6 &7, 12:50pm to 2:45pm. If you would like to work on homework during this time, please check in with the instructor of record or graduate teaching assistant leading Production Workshop that day. There may be spaces in other costume areas available even if the Costume Shop is at capacity.

Additional homework hours are available Mondays, Wednesdays, and Fridays from 5pm to 8pm. A graduate teaching assistant will be present in the building to monitor the production shops during these times.

This course schedule is subject to change at the instructor's discretion. Please refer to the Syllabus page on Canvas for the most up to date information.
