## **LEARNING OUTCOMES:**

After completing this course, the student should be able to:

1. Develop the syllabus and the class schedule along with other necessary teaching materials and use them to successfully expose and instruct undergraduate students at undergraduate level to the art of theatrical scenic design.
2. Develop the ability to teach any related class that combines practical knowledge and conceptual thinking.
3. Teach how to develop and communicate design ideas through sketches, renderings, models and technical drawings.

## **GRADING:**

The student will be evaluated based on:
