Show Control Systems for Live Performance
TPA4930/TPA6930, Sect 2930
DIG4930, Sect ST3C
3 credits
Tuesdays: 10:40 am-1:40 pm
Professor: Dr. Heidi Boisvert
Location: Constans Theatre, G15
Email: hboisvert@ufl.edu
Office Hours: Tuesdays & Thursdays 2-4 pm (or by appointment only)
Office Location: Nadine McGuire Theatre & Dance Pavilion, Room #233
Office Phone: 352-273-0513 (email is best)

Course Content —> Canvas Site:
Course Collaboration —> Slack Workspace:

Course Description:

This course investigates advanced techniques and practices to design custom entertainment control systems and show networks for live performance. Through hands-on, project-based work, students program computer-based systems for interactive lighting, sound, machinery, video and other control systems for live performances, interactive installations, theme parks, museum exhibits and other hybrid entertainment forms. Isadora, TouchDesigner, Unity, Medialon and other real-time performance interfaces will be explored.

Prerequisites: None

Course Goals:
To give students an introduction to:
– the history and contemporary field of experimental networked performance employing emerging technology.
– tools and techniques for controlling experimental, multi-media performance and building network infrastructure.
– collaborative strategies for working on teams with different disciplinary skills and backgrounds.

Learning Outcomes:
By the end of the course students will be able to:
– learn correct terminology for technical and design aspects of the field.
– understand and employ different modalities of design and production and integrate those modalities into an experimental performance experience.
– discuss the evolving technologies and innovative approaches used by professionals in the field of experimental performance.
– design and program custom control systems.
Course Materials:
- Canvas
- Slack
- GitHub
- Flash drive & other portable drives or DropBox account to back up files
- Required Readings - Provided as PDFs
- Software Tutorials - Links will be provided
- Journal &/or Sketchbook (Digital or Physical)
- Laptop (Mac or PC)

Relevant Hardware & Software:
- Max/MSP (https://cycling74.com/)
- PureData (https://puredata.info/)
- Processing (https://processing.org/)
- Isadora (https://troikatronix.com/)
- Mad Mapper (http://madmapper.com/)
- QLab (https://figure53.com/qlab/)
- TouchDesigner (https://www.derivative.ca/)
- Medialon (https://medialon.com/)
- Field (http://openendedgroup.com/field/)
- Unity (https://www.unity.com/)
- Unreal (https://www.unrealengine.com/)

Recommended Reading List:
Huntington, John. Introduction to Show Networking.

Industry Essentials:

Grading Policy*:
- 20% reading/experience responses
- 20% in class exercises
- 40% final project
- 10% documentation
- 10% participation & attendance
* University grading policy can be found here: https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/.

Grading Rubric:

<table>
<thead>
<tr>
<th>VALUES</th>
<th>Excellent (90-100)</th>
<th>Good (80-89)</th>
<th>Fair (70-79)</th>
<th>Poor (60-69)</th>
<th>Unsatisfactory (0-59)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Concept</td>
<td>Core concept is intriguing, original, and well-explored</td>
<td>Core concept is intriguing but lacking in examination</td>
<td>Core concept is present and supported by the work</td>
<td>Core ideas are scattered without consideration</td>
<td>No clear concept, or work doesn’t reflect it</td>
</tr>
<tr>
<td>Progress</td>
<td>Clear and consistent progress from ideation to execution</td>
<td>Progress was made, but was not consistent</td>
<td>Evidence of procrastination, “last minute” pushes or crunch</td>
<td>Lack of progress in 1-2 areas resulting in project deficiencies</td>
<td>Little to no progress shown on the project</td>
</tr>
<tr>
<td>Presentation</td>
<td>Concept is clearly presented and strongly supported through audio, visuals, interaction, and narrative (if applicable)</td>
<td>Concept is supported through presentation, but 2 or more areas of the design are lacking or distracting</td>
<td>Concept is weakly supported through presentation, project requirements met at a “bare minimum” level</td>
<td>1-2 presentation requirements are not met.</td>
<td>3+ presentation requirements are not met.</td>
</tr>
<tr>
<td>Skills</td>
<td>Clear demonstration of skills in all development areas (visual, text, audio, interaction, programming)</td>
<td>Clear demonstration of skill in 2+ development areas</td>
<td>Demonstrates skills, but omits topics covered in class.</td>
<td>Evidence of skills, but underutilization of techniques learned in class</td>
<td>Does not use any techniques learned in class.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>VALUES</th>
<th>Excellent (90-100)</th>
<th>Good (80-89)</th>
<th>Fair (70-79)</th>
<th>Poor (60-69)</th>
<th>Un satisfactory (0-59)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Collaboration</td>
<td>Consistently provides honest, supportive feedback to peers, responsible in meeting team goals, communicates effectively.</td>
<td>Generally supportive, responsible, and good communication, with a few issues</td>
<td>Multiple issues/problems with collaboration, meeting goals or communicating</td>
<td>Little to no evidence of communication, goal setting, and collaboration in a team setting.</td>
<td>Disrespectful to fellow students work, with negative impacts to class/team dynamics.</td>
</tr>
</tbody>
</table>

**Expectations:**

- **Arrive on time** and attend all classes— see below for attendance policy.
- **Spend at least 2-4 additional hours a week** (outside of class) on class projects, readings, experimenting with tech & writing in journal.
- **Check Canvas** for assignments and materials (typically announced and posted at the end of class on Wednesdays).
- **Check Slack** regularly for group and private messages.
- Post weekly reading responses to Canvas **by midnight on Tuesdays** unless otherwise specified in the assignment.
- **Actively participate** in class discussions & group critiques.
- **Back up your work** regularly.
- **Follow good device etiquette**: No cell phone use during class. Laptops only used for lecture note-taking and related class activities.
- **Thoughtfully contribute** to a positive classroom environment, while actively supporting and challenging your classmates’ ideas.
- **Push yourself creatively and technically**. Be ambitious. Work hard. Stay open and curious!

**Communication:**

- To contact your instructor with a brief, private question or message, **send a DM (Direct Message) through Slack**.
- If you have a question that may be relevant to the group (about homework, etc.), **post in the #general channel** on Slack for all to see and comment on.
- Use Slack for easy communications with your classmates as well—you can DM individuals or selected groups.
- To discuss a longer matter with your instructor, DM to set up an appointment for office hours.

**Attendance Policy:**
• Students are expected to attend every class, arrive on time, and actively engage/participate.
• If you will be absent, or if you are running late, DM your instructor ASAP.

• In the case of an absence, contact a classmate for notes and what you missed, check Canvas for assignments, and contact the instructor if you have additional questions.
• Lateness and absences will impact your grade. Worse, not showing up will impact everyone else in the class. As most of our projects are collaborative, we are dependent on everyone’s presence and full participation.
• All in-class activities are graded for participation. Unexcused absences will result in a 0 for participation for the day.
• Unexcused lateness counts as 1/3 absence when up to 25 minutes late, 1/2 absence when 26-50 minutes late, and a full absence beyond that point.
• Absences may be excused in the following cases: documentation of illness provided by a doctor, religious observance with advance notice, official school-related activity (with documentation and advanced notice), and on a case-by-case basis for other critical events.
• Project critiques are mandatory and cannot be made up. Missing a critique will result in a deduction of one letter grade for the corresponding project.

• For University Attendance Policy, please refer to this link: https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/.

Academic Integrity Policy:

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code specifies a number of behaviors that are in violation of this code and the possible sanctions. Click here to read the Conduct Code. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Instructor Note: Code borrowed from another source at more than four lines in length must be attributed as a //comment within the code itself. If you are unsure of whether or not your work may constitute plagiarism, please check with your instructor before submitting.

In-Class Recording:

• Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a
complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Course Accommodations for Students with Disabilities:

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center here: https://disability.ufl.edu/get-started/. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Student Evaluation Requirements:

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluerca.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

Course Structure (Lecture, Lab & Demos):
Lecture/Demo - Context setting and introducing tools & techniques

Lab/In Class Exercise - Scaffold development pipeline and experimentation

Read/Respond - Critically engage with readings/videos by writing up a short reaction to key points in preparation for discussion

Experience/De-construct - Research new immersive works & identify narrative devices, experience design strategies and technology employed to build a collective toolbox

Studio - Hands-on, collaborative project development

**Course Schedule:**

// Week 1 - Thursday - August 24th - INTRO - SHOW CONTROL & NETWORKING

Lecture/Demo: Overview of Course, Structure & Ideas
Lab/In Class Exercise: Theater of the Mind - Case Study

HW Read/Respond:
Huntington, John. Introduction to Show Control - Chapter 1

HW Experience/Deconstruct:
Theater of the Mind (Immersive Theater)
Last Defender (Escape Room)
Loop Driver - Troika Ranch (Dance)
Where There’s Smoke - Lance Weiler (Interactive Storytelling)

// Week 2 - Thursday - August 31st - INTRO to QLAB

Lecture/Demo: Introduction to QLab Interface - Basic Cueing, Timeline & Playback Systems

Lab/In Class Exercise: Creating a Series of Playable Cues (audio, video, lights)

Read/Respond: Huntington, John. Introduction to Show Control - Chapter 2

HW Tutorials: QLab - Fundamentals

// Week 3 - Thursday - September 7th - INTRO to Isadora

Lecture/Demo: Introduction to Isadora Interface - Interactive Video & Audio + Projection Mapping

Lab/In Class Exercise: Create Interactive Audio & Video Patches
HW Read/Respond:
Huntington, John. Introduction to Show Control - Chapter 3

HW Experience/Deconstruct:
Carol Kim (CRUMPLE)
Gertjan Biasino & Sabine Molenaar (Almost Alive)
Justin Stephenson (The Faceless Forces of Bigness)
Pamela Z (Baggage Allowance)
Moritz Majce & Sandra Man (Choros)

HW Tutorials: Isadora - Guru Series

// Week 4 - Thursday - September 14th - Network Protocols - IPs, Ports, OSC, UDP, TCP

Lecture/Demo: Network Protocols - IPs, Ports, OSC, UDP, TCP, Midi
Lab/In Class Exercise: Creating a LAN network - Bi-Directional Communication btw Isadora & Qlab

HW Read/Respond: Huntington, John. Introduction to Show Network - Chapter 1

HW Tutorials: Isadora - Guru Series cont.

// Week 5 - Thursday - September 21st - Sensing Devices as Inputs

Lecture/Demo: Generative Music and Visuals with Sensor Data (Biophysical, Proximity, Capacitive, IMU)
Lab/In Class Exercise: Create a Performance with Real-Time Data using Isadora & Qlab

HW Read/Respond: Huntington, John. Introduction to Show Network - Chapter 2

HW Experience/Deconstruct:
Marco Donnarumma (Corpus Nil)
Heidi Boisvert ([radical] signs of life)
Ellen Pearlman (Noor: A Brain Opera)
Per Huttner & Robert Oosteveld (EegSynth)

HW Tutorials: Isadora - Guru Series cont.

// Week 6 - Thursday - October 5th - Generative Audio

Lecture/Demo: Introduction to Max/MSP
Lab/In Class Exercise 4: Make a Sequencer & Synthesizer Patch

HW Read/Respond: Huntington, John. Introduction to Show Network - Chapter 3 & 4

HW Experience/Deconstruct:
Doug VanNort (On-to-Genisis)
Cecilia Lopez (RED)
Lauren Sarah Hayes (Wavetable)
Parish Bracha (Cascade III)

HW Tutorials: Max MSP - The Audio Programmer

// Week 7 - Thursday - October 12th - Using Game Engines as Input & Output Devices

Lecture/Demo: Introduction to Unity Interface
Lab/In Class Exercise: Create a Level Design & Character Controlled by Keyboard
HW Read/Response: Huntington, John. Introduction to Show Control - Chapter 4
HW Tutorials: Unity - Essentials Pathway

// Week 8 - Thursday - October 19th - Using the Body as a Remote Control

Lecture/Demo: Introduction to Motion Capture with Kinects & Rokoko
Lab/In Class Exercise: Control Character with Re-Targeted 3D Avatar in Real-Time

HW Experience/Deconstruct:
Royal Shakespeare Co. (Dream)
Heidi Boisvert & Kat Mustatea (Lizardly)
Lisa Jamhoury (Maquette)
Sandra Rodriquez & Alexander Whitley (Future Rites)

HW Tutorials: Rokoko Studio

// Week 9 - Thursday - October 26th - Introduction to Touch Designer

Lecture/Demo: Overview of Touch Designer Interface & Operators
Lab/In Class Exercise: Create Audio Reactive Visuals Controlled by Sensors or Body

HW Experience/Deconstruct:
Julien Bayle (The Collapse)
Volvox Labs (Walking on the Moon)
Moment Factory (Various)
Remy Siu (Foxconn Frequency (no. 3))

HW Tutorials: TouchDesigner - New Curriculum

**MID-TERM DUE - Select Play & Create I/O Paper Tech for Final Project**

// Week 10 - Thursday - November 2nd - Raspberry Pis & Relays + Switches
Lecture/Demo: Microprocessors to Control Responsive Environments
Lab/In Class Exercise: Create Relay with Pi for Controlling Buttons & Motors
HW Tutorials: Python Basics

// Week 11 - Thursday - November 9th - Introduction to Medialon
Lecture/Demo: Introduction to Medialon Interface
Lab/In Class Exercise: Setting up Devices, Network Protocols & Programming Time/Step-Based Cues
HW Tutorials: Medialon Training Videos

// Week 12 - Thursday - November 16th - Building Network Architecture
Studio - Final Project Development

**NO CLASSES NOVEMBER 23rd for Thanksgiving Holiday**

// Week 13 - Thursday - November 30th - Defining Inputs & Outputs
Studio - Final Project Development

// Week 14 - Thursday - December 7th - Programming Cues
Studio - Final Project Development

// Week 15 - Thursday - December 14th - Designing GUIs & Web Panels
Studio - Final Project Development

// Week 16 - Thursday - December 14th - Final Presentation & Crits
FINAL DOCUMENTATION DUE - December 15th

PROJECTS:

MID-TERM - Choose a Play and Create a paper-tech breakdown of a performance (sound, light, motor controls, buttons et al)

FINAL - Create a Custom Show Control System & Network Architecture for to the Play
Additional Campus Resources:

Health and Wellness

*U Matter, We Care*: If you or someone you know is in distress, please contact umatter@ufl.edu, 352-392-1575, or visit U Matter, We Care website to refer or report a concern and a team member will reach out to the student in distress.

*Counseling and Wellness Center*: Visit the Counseling and Wellness Center website or call 352-392-1575 for information on crisis services as well as non-crisis services.

*Student Health Care Center*: Call 352-392-1161 for 24/7 information to help you find the care you need, or visit the Student Health Care Center website.

*University Police Department*: Visit UF Police Department website or call 352-392-1111 (or 9-1-1 for emergencies).

*UF Health Shands Emergency Room / Trauma Center*: For immediate medical care call 352-733-0111 or go to the emergency room at 1515 SW Archer Road, Gainesville, FL 32608; Visit the UF Health Emergency Room and Trauma Center website.

*GatorWell Health Promotion Services*: For prevention services focused on optimal wellbeing, including Wellness Coaching for Academic Success, visit the GatorWell website or call 352-273-4450.

Academic Resources

*E-learning technical support*: Contact the UF Computing Help Desk at 352-392-4357 or via e-mail at helpdesk@ufl.edu.

*Career Connections Center*: Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services.

*Library Support*: Various ways to receive assistance with respect to using the libraries or finding resources.

*Teaching Center*: Broward Hall, 352-392-2010 or to make an appointment 352-392-6420. General study skills and tutoring.

Student Complaints On-Campus: Visit the Student Honor Code and Student Conduct Code webpage for more information.

On-Line Students Complaints: View the Distance Learning Student Complaint Process.
