Major Course Assignments

Note: See the assignments in eLearning for full details and grading rubrics related to each assignment.

Phone Meetings with Instructor (3 meetings, 10 pass/fail points each = 30 points): Each student will schedule three phone meetings with the instructor during weeks one, two and six. A proposed schedule of call times is due to the instructor on August 25th by midnight. The student will provide the instructor with a phone number or Skype name and must answer the call within five minutes of the scheduled time. The student should be prepared for the call and plan to address all necessary topics within 30 minutes.

Capstone Pre-proposal (two parts, 15 points each = 30 points): The capstone pre-proposal will be completed in two parts, using the capstone pre-proposal form provided on Canvas. Part one allows the students to articulate the project component of the proposal, including the project site, location, target population, supervision, goals, objectives, anticipated outcomes, activities, and deliverables. Part two allows students to articulate the assessment plan, including the type of assessment planned (research or evaluation), the methodology, rationale for the methodology selection, the specific methods that will be applied, and the deliverables. Phone meetings with the instructor will guide the development of the plan.

Literature Review (first draft 20 points, final draft 30 points = 50 points): Students will conduct a full literature review on the topic of the capstone project. Students will define the focus of the review and are expected to saturate the literature and present a clear review of that literature in a 1,500-1,700-word paper. The paper should include: 1) an introduction, including a thesis statement and a statement of what the review will present; 2) a body, including discussion of the literature organized either chronologically or thematically; and 3) conclusions (and recommendations, if appropriate to the review). It may be appropriate to also present the assessment methodology that will be applied to the project. Students may discuss this option with the instructor.

Capstone Proposal (first draft 20 points, final draft 30 points = 50 points): The final capstone proposal will include a project description, background/rationale (this is the literature review), project goals, objectives, anticipated outcomes, activities, and the evaluation or research plan, including type of assessment planned (research or evaluation), the methodology, rationale for the methodology selection, the specific methods that will be applied, and the project deliverables. The proposal should be written in a formal paper format with the appropriate headings, and be 2,500 – 3,000 words in length.

Course Policies

Capstone Project Planning:

- A professional manor of communication must be maintained within all inquiries to and planning with potential project sites
- All guidelines, policies, and protocols of the practicum site must be taken into consideration in the project planning process
• Students must clarify with potential project sites that project work will be undertaken in a practicum format, not an internship format. Any necessary contracting will take place between the student and the site, and not directly between the site and the University of Florida.
• Failure of the student to complete the capstone plan, including site approval, will result in failure of the course (E grade), and not an incomplete (I grade).

Assignments:

• Assignment Due Dates and Times - All assignments, unless otherwise noted, are due at 11:59pm on the due date. Please note that no late submissions will be accepted on the discussion board.

• Naming Your Documents - When naming your assignment documents, the following format must always be used: AssignmentName_Yourlastname.

• Formatting Documents - All work submitted, including discussion board posts and major assignments, must use APA formatting, including document formatting, in text citations, and reference lists. Be sure to properly cite all sources that you quote or paraphrase.

• Late Assignment Submission Policy - The instructor will only accept late work in the event of extenuating circumstances and only within 24 hours of the due date. The course due dates are critical; especially where peer review is involved.

• As stated below in technical assistance, any requests for late assignment submission due to technical issues MUST be accompanied by ticket number and record received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You are required to e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Class Participation/Demeanor:

• Participation in all aspects of this course is essential to your success. Every assignment and interaction within the course is integral to your learning, and full participation is required. It is expected that you will log on to the course website to communicate with the instructor and participate in the forum at least two times per week.

• Written communication and electronic interaction are central to online learning. Please see the Online Etiquette section of the assignment guide for expectations for written and electronic interactions.

• Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx

Communication:

• It is the student’s responsibility to communicate with the instructor promptly concerning any circumstances that might effect his or her participation in the course. Please do not let any
questions or concerns you have go unattended. It is the instructor’s intention to respond to all e-mail communication within 48 hours, excluding weekends.

General Course Questions:
• There are two ways in which you can ask general questions of the instructor. If you have a general question related to an assignment, course material, or course policy that may be relevant to other class members, you may post it under Course Questions on the Discussion Board. If your question is specific to your own work, progress, circumstances, grade, or is personal in nature, please email the instructor privately.
